DETAILED ACTION

Specification

The claims in this application do not commence on a separate sheet in accordance with 37 CFR 1.52(b). Appropriate correction is required in response to this action.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 1-2 and 6-7 are rejected under 35 U.S.C. 102(e) as being anticipated by Yokogawa U.S. Patent 5,891,252.

The rejection is maintain as stated in paper # 7, mailed on 5/22/01, for the reasons of record.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

Claims 4-5 and 8 are rejected under 35 U.S.C. 103(a) as being unpatentable over Yokogawa et al., U.S. Patent 5,891,252.

The rejection is maintain as stated, with respect to claims 3-5 and 8, in paper # 7, mailed on 5/22/01, for the reasons of record.

Claim 9 is rejected under 35 U.S.C. 103(a) as being unpatentable over Yokogawa et al., U.S. Patent 5,891,252 as applied to claims 4-5 and 8 above, and further in view of Nakano et al., U.S. Patent 6,155,202.

The rejection is maintain as stated in paper # 7, mailed on 5/22/01, for the reasons of record.

Response to Arguments

Applicant's arguments filed on 10/22/01 have been fully considered but they are not persuasive. Applicants' argument with respect to the location of the microstrip antenna (MSA) in the apparatus disclosed by the Yokogawa et al. reference is not persuasive. First, the examiner wants to kindly point out that independent claim 1 only requires that the MSA be "installed in an atmosphere". The term "atmosphere" is considered a broad term, and therefore, as broadly claimed, the Yokogawa et al. reference discloses such limitation in Fig. 7, as stated in the rejection of the last office action. Applicants' argument seems to be relevant to the original dependent claim 5, wherein details of the atmosphere in which the antenna is installed seems to be claimed. But, the examiner kindly directs the applicants to the rejection of the last office action, wherein it was clearly stated that such claimed arrangement would be prima facie obvious for the reasons of record.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
